

Appoint Total Solutions Middle East as your Company Secretary

Total Solutions Middle East has built up a strong reputation as a DIFC based compliance consultancy firm. By performing our duties as outsourced compliance officer/MLRO, our consultants are advising on the corporate governance arrangements of Authorised Firms. We are also in regular contact with regulators (DFSA) and authorities (DIFC).

By appointing Total Solutions Middle East as your Company Secretary, your company will enjoy the benefits of our know-how, expertise and good relationship with local authorities. For a fixed fee per month, we will take care of all reporting requirements towards the DIFC (by using DIFCSTAT), of all internal reporting and record keeping requirements. We will also take initiative in the preparation and organisation of shareholder's and board of director's meetings. On their request, we also provide advice to directors and shareholders on their duties, business ethics and other corporate governance issues.

Corporate Governance should be more than just some words on a piece of paper; it must also become daily practice. Total Solutions Middle East can not only draft your corporate governance memorandum and code of ethics (or code of conduct), our compliance consultants can also advise you on the implementation of these policies and provide training to all relevant persons.
