

## June 2009 TS donates computers to primary school

Amsterdam, 12th of June 2009

Total Solutions donates old computers to local primary school.  
This year, Total Solutions has replaced her IT Infrastructure.

Robi Dattatreya says: *"With our broad range of services, the recently opened office in the Hague and the latest IT Infrastructure, Total Solutions is ready for the upturn of the market. We feel that the lowest point lies behind us and we see an increase in the number of incoming jobs".*

The old computers have been given a second live at a primary school in Amsterdam.
